**PRODUCT DESCRIPTION**

The Aydin Model RFP19 is a 19" Rugged Military Display and is designed for use in severe environments as encountered by the military. This model is designed to meet a wide variety of applications (shipboard, airborne and ground mobile), which require a solid mechanical design to protect the unit against shock, vibration and temperature extremes.

This model is designed to meet the requirements of MIL-S-901D Grade A Class II Shock, MIL-STD-167-1A Type 1 Vibration, and MIL-STD-461F EMI.

This 19" Rugged Military Display features an Attractive Flush Rack Mount and is packed with features including LED Backlight, High Brightness With Full Range Dimming, and much more.

The [Aydin Defense product line](#) comes in a variety of sizes ranging from 10" to 65". Aydin has been designing and supplying ruggedized displays, smart displays / thin client displays and computer workstations for military programs for 50 years. With thousands of military displays deployed throughout the world, Aydin is in tune with the needs of its military customers.

Aydin has a proven reputation of expertise in designing, manufacturing, testing and qualifying ruggedized equipment for operation in severe military environments such as ground mobile, airborne, surface warships and submarines. We also offer fully customizable solutions to meet your application requirements.
