PRODUCT DESCRIPTION

Take a look at the 4421R5C. This 21” Color Flat Panel Display was originally designed for naval applications, but can thrive in any rugged environment.

The 4421R5C is packed with standard features including, an LED backlight, high brightness with full range dimming, wide viewing angle and auto ranging internal AC power supply. The 4421R5C is designed to meet the requirements of MIL-S-901D Grade A Shock, MIL-STD-167-1A Vibration and MIL-STD-461F EMI.

This unit also comes standard with multiple video inputs such as 5-BNCS (RGBHV) and a DVI-I D input.

The Aydin Defense product line comes in a variety of sizes ranging from 10” to 65”. Aydin Displays has been designing and supplying ruggedized displays, smart displays / thin client displays and computer workstations for military programs for 50 years. With thousands of military displays deployed throughout the world, Aydin is in tune with the needs of its military customers.

Aydin Displays has a proven reputation of expertise in designing, manufacturing, testing and qualifying ruggedized equipment for operation in severe military environments such as ground mobile, airborne, surface warships and submarines. We also offer fully customizable solutions to meet your application requirements.
